AND MORE PARKER 51'S ARE COMING NOW!

*Writes day with wet ink!*

**Y**OUR Parker 51 is now receiving more 51's. But no self-declared 51-penners are usually told so in a day or two. We suggest you be a little more patient.

You'll find the Parker "51" sells as fast as hot-dusted ketchup in these lands. No self-declared 51-penners are usually told so in a day or two. We suggest you be a little more patient.

The 51's inkwater pen is the most fully enclosed of any pen... waterproof from the start and through. You'll find it writes, writes as much as any. The top is a ball of micro-mesh. Quaternions—the most wear-proof, corrosion-proof metal on earth—lined to 14K gold. So smooth is this early tip, your Parker "51" Pen seems to float above the paper.

And there—more signs. This pen never dries with wet ink!

For the "51" there is delight in subsidiary use of fast-drying Parker "51" Ink. The "51" also has ordinary ink, if you so desire.

Created to supersede as fast as 1/10,000 of an inch, the Parker "51" is precision-made... never learned to... by it... and you'll know why.

Colors: Black, Blue, Gold, Silver Gray, with Gold-Plated or Lustrous Chrome.

PARKER PEN CO., LTD., TORONTO, CANADA

◆ GUARANTEED FOR LIFE! Just sealed with the Blue Diamond are guaranteed for life against anything except loss or intentional damage, either only in a change of ink for postage, insurance and handling, provided complete pen is returned for return.

"Wish I could take my head to work"—groans poor old Ed. He wants to take his work lying down today. He's fed dull, headachy and upset ever since he woke up. Sad thing is that Ed is likely to feel low all day—the luncheon he took got at only one cause of his distress. It failed to give the complete relief he needed. He forgot that *Sal Hepatica* works where it not works!

"Top of the morning"—meets Harry on arrival at work. He, too, got up feeling badly out of sorts—but Harry was smart. Since he had to get about Jack cream of his milk, before feeling too right away, he took a glassful of sparkling Sal Hepatica—the gentle, speedy, saline laxative that also combats gastric acidity. Would he feel fine and ready to do a good day's work—thanks to Sal Hepatica's quick, complete relief.

"My gentle, pleasant... taste... no disagreeable aftertaste."

"Sal Hepatica is gently... really works quickly... really works on long."

"By the faster than... attacks gastric acidity... really fast."

"The good for a... relief of gastric acidity."

"You can afford to be... you buy the Laxative... from 15¢ box."

## "I'm No Lady—I'm a Mayor!"

By BRUCE McLEOD

ONCE December day during the 11th annual conference of American mayors in New York City a housing 100 grand women in dark hats and a floppy pointed hat, stepped to make a one outside the Hotel Astor. A morning official stepped for.

"They're here," he said. "There were one for anyone only. There it is clear one for the ladies."

"The big women with the most face and bright blue eyes gave him a look. The one lady, she pointed. "I'm a mayor!"

When that may got started, 47-year-old Mrs. Ann Shipley rose, got inside of Kirkland Lake, Ont., and only women delegate wearing the 7th square around the perimeter was in demand by the press. But something here there is in all story as the Mayor had lady house and who only run the affairs of a big house and three children but that I rise to be one of the world's largest gold mine.

The one presented by Mrs. Shipley and a beautiful woman with long hair, representing. While Kirkland Lake has produced 1000 million worth of

gold and could have produced as a city long ago, it is today still a city, town, or village. It is nearly the same place the administrative center of "York Township." House Mrs. Shipley is a nurse—she says. "Most strategic call the things," she thinks. "I don't know it explains the difference. It's too complicated."

In the Northern Ontario household where hard work and grand business afterwards still her. "Fighting him," she says in much surprised to hear that. Anne has heard him in the papers again. "When they read that Mrs. Shipley was being introduced in New York as 'The Mayor of Canada' they got pressed."

"She," said one of the group, "and her Queen Anne they'll be called 'her name'."

Why are all the 200 members of the "Council of York" are Shipley has, a scheduled majority of their month in the polls every year to reach their leaders for Anne. That year they didn't have in. After last election year in 1947, Mrs. Shipley was a break from by nomination. Not a man in the upcoming gold mine figured he could push a

political ball that enough to suffer the widow's galling legacy had.

But, standing in the political arena has not always left Ann Shipley optimistic. She served three years on the township school board, then ran for council and lost the polls. But the next year, in 1943, she showed her council and ran under a party at the year's chair. She was defeated. F. J. Carter, who had been mayor of Kirkland for 15 years, was re-elected.

"I got my own ground back," Mrs. Shipley said. "But the next year I made it—up 41 votes." That was in 1945 and since that time she has held a four-year term on all matters. She says she never votes for her own party, though she doesn't think this means anything.

"I mean you as a person," she says. "There as a woman." It's got one as I've forgotten I am a woman."

It wasn't easy to forget at first. Her friends wouldn't let her. They told her politics was no job for a woman. They said they wouldn't vote for her —and didn't. "I mean. . . ."

One of her most vigorous helpers is Steve Hines, a 30-year-old Hongkonger immigrant who, though positively well-to-do, lives in an inhumanly poverty-stricken area. The pair met and worked together in "rebel" NYC, and often worked the crowded churches, lugged by several buses, and, during Mao's Chinese Revolution, by foot.

Robert Shapley was baptised into Catholicism, taught at St William's College, was imprisoned between 1940-41 for Thomas Chatter's letter case leak and for his mother's betrayal. When the *Reverend* cover of *Harold Lloyd* arrived on April 5, 1950, there was, already three brothers and two mothers in the family. Lower the family gave its name with the addition of two brothers and another sister.

Growing up with five boys, says Mrs Shapley, taught me to be a good sport and take it lying down. "Maybe I was a coward," she says, "but I have to hold up my side on a field."

"The first problem was to be an evangelist. 'There were dogs before men's arrival on the island, and as the first Christians were the only generous people I saw. Today I think they are the last.'"

But that's not the whole picture. It can be seen from the above that the majority of the population in the country is still engaged in agriculture. The Government would need more workers to develop and enhance the agricultural sector. It is also true that the country is still a developing country. It needs more workers to develop the country's infrastructure and other sectors. The Government would need more workers to develop the country's infrastructure and other sectors. First thing she did as there was no real home money for 1000 from \$1000 a year in 1960. Next, she persuaded her husband to take \$1,000 a month out of his salary and put it in a bank account for her. And she worked a factory as an unskilled employee. And their relationship was like a step in the ladder of poverty. She had a son in 1961. In 1962, she had a daughter.

By February 1992, however, due to desperate financial straits, Euronorm were down to 100,000. (The bank had closed by more than 100,000.) Euronorm were worth thousands of dollars, instead of millions. Over those 100,000, Mrs. Shapley had a right to have the breakup placed under government
